Quality Assurance

ISO 9001:2008 Certified & CPRI Tested

Quality is our main strength and we endlessly strive to upgrade and improvise on the quality of the products offered by us. The complete range of Auto & Electrical Control System offered by us is manufactured with utmost precision and is in compliance with the prevailing quality standards in the industry. In addition, we offer highly customized designed in accordance with the clients' requirements capitalizing on our CAD facility. Our entire product range is properly checked under various parameters such as :

- Performance
- Load capacity
- High voltage testion
- Downtime
- Wiring
- Dimensional accuracy
- Safety

CPRI Tested our panel products

- 50 KA short circuit.
- High volatage test.
- Best quality.

Thorough checking and testing of the Electrical Products ensure that they are safe for use and offer flawless functioning.
